

iServe Spring 2025 Partner Projects
(as of 1/9/25)

Project #1 – AgeWell at the Jewish Community Center of Greater Pittsburgh

Need: 1-2 students

On site: Required (Squirrel Hill)

Looking for: Technology Tutors

Project Summary: 1:1 tech tutoring with seniors is needed for 1-4 hours a week between the hours of 10 a.m. and 3 p.m. The tutoring will increase their digital literacy skills, resulting in increased levels of knowledge and confidence.

Interpersonal Skills Needed: Interpersonal Communication, Problem Solving

Please note: Security and Child Abuse Clearances (paid for by Pitt), as well as Mandated Reporter Training are required.

Project #2 – Cancer Bridges

Need: 2-4 students

On site: Not required

Looking for: Web Design, Web Development, Social Media, SEO

Project Summary: Looking to enhance an existing website by building dedicated fundraising, partnership, and member impact pages, integrating SEO strategies and accessibility compliance. These pages will streamline user navigation, provide targeted information for potential donors and partners, and highlight measurable program outcomes to inspire community support.

Interpersonal Skills Needed: Interpersonal Communication, Adaptability, Inquisition, Critical Observation

Project #3 – Family Links

Need: 2-4 students

On site: Not required

Looking for: Web Design, Web Development, Social Media, SEO

Project Summary: Assistance with improving their social media following, as well as improving SEO on website to attract clients and potential employees in the hopes of increasing fundraising efforts, with the ultimate goal of better serving the community.

Interpersonal Skills Needed: Interpersonal Communication, Inquisition

Project #4 – Mt. Washington Senior Center

Need: 2-4 students

On site: Required (Mt. Washington)

Looking for: Technology Tutors

Project Summary: Tutors will assist seniors to learn how to operate a laptop, table, or smart phone and become independent users of technology.

Interpersonal Skills Needed: Interpersonal Communication, Problem Solving

Project #5 – North Side Partnership Project

Need: 2-4 students

On site: Not required

Looking for: Web Design, Web Development, Database Design, Database Management/Updates, Social Media, SEO, Technology Tutors

Project Summary: Assistance is needed to bolster their digital presence through social media and creating a more effective, user-friendly website. SEO strategies are needed to increase visibility to make it easier for potential supporters and community members to discover services.

Interpersonal Skills Needed: Interpersonal Communication, Problem Solving, Adaptability, Inquisition, Critical Observation

Project #6 – Ruth’s Way

Need: 2-4 students

On site: Not required

Looking for: Social Media, Information Research/Analysis
